[which question] does the model look at the aircraft?
CAM layer = layer3 (grid 6×6), 1.34× above chance
model mean = 0.088
random baseline = 0.065
Number of test samples

[which question] does the coarse CAM layer hide the localisation?
(ResNet18 downsamples 32×, so layer4 is only 3×3 at 96×96)
inside estimated bbox
on bright pixels (sharper)
